- Glass and Tile
- Stucco
- Doors
- Fiberglass
- Window Trim
- Furniture Cushions

### **PRO-TECH BRIGHTENER APPLICATIONS:**

#### **TECHNICAL DATA:**

**VOC:** 0

**Installation Temperature:** No minimum or maximum

**Dry to Touch:** 24 hours

**Coverage:** One container makes approximately sixteen 300 sq ft applications

#### **SURFACE PREPARATION:**

Sweep the surface with a stiff broom or use a blower to clean area of debris. Use **Penofin Pro-Tech Stripper (Step #1)** if needed to remove old stain and **Penofin Pro-Tech Cleaner (Step #2)** to prepare the area. **Penofin Pro-Tech Brightener** is most effective where wood is not hot to the touch. Protect bordering metal surfaces when using at high concentrations. Dampen surrounding vegetation with water.

### **APPLICATION:**

Pour one to two cups of **Penofin Pro-Tech Brightener** into one gallon of clean water and mix. Using a plastic pump up sprayer, brush or mop, apply the solution liberally. For best results DO NOT ALLOW THE SOLUTION TO DRY ON THE SURFACE. Mist occasionally and agitate with a broom or non-metallic stiff bristled brush for ten to fifteen minutes. Rinse thoroughly with water.

**ALWAYS WEAR RUBBER GLOVES, EYE PROTECTION AND SOLID SHOES WHEN APPLYING. SURFACE WILL BE SLIPPERY. DO NOT INHALE POWDER, AS THIS PRODUCT WILL IRRITATE MUCOUS MEMBRANES, MAKE NOSE RUN AND EYES WATER.**

### **CLEAN-UP:**

- Thoroughly rinse all equipment with water.
- Store any unused **Penofin Pro-Tech Brightener** powder in its original container.
- Do not transfer to a metal container as it will cause a chemical reaction.
- Protect from freezing.
- For disposal of unused product and empty containers, contact your local household refuse collection service.
