- Siding
- Furniture
- Fences
- Wood Art
- Glass and Tile
- Stucco
- Doors
- Fiberglass
- Window Trim
- Furniture Cushions

#### **PRO-TECH CLEANER APPLICATIONS:**

##### **TECHNICAL DATA:**

**VOC:** 0

**Installation Temperature:** No minimum or maximum

**Dry to Touch:** 24 hours

**Coverage:** One container makes approximately sixteen 300 sq ft applications

##### **SURFACE PREPARATION:**

Sweep the surface with a stiff broom or use a blower to clean area of debris. If the surface has been treated previously with a non Penofin coating, use **Penofin Pro-Tech Stripper (Step #1)** to prepare the area. Protect bordering metal surfaces when using at high concentrations. Dampen surrounding vegetation with water.

##### **APPLICATION:**

Pour one to two cups of **Penofin Pro-Tech Cleaner's** hydrogenated crystals into one gallon of clean water and mix. Mist the surface to be cleaned with a garden hose. Using a plastic pump up sprayer, brush or mop, apply the solution liberally. For best results do not allow the solution to dry on the surface. Mist occasionally and agitate with a broom or non-metallic stiff bristled brush for ten to fifteen minutes. Rinse thoroughly with water.

#### **FOR DRIVEWAYS, GARAGE FLOORS AND REALLY BIG MESSSES:**

Wet the surface to be cleaned and sprinkle directly with **Penofin Pro-Tech Cleaner** powder. Agitate the area with a broom or stiff bristle brush for at least fifteen minutes.

#### **FOR WOOD SURFACES:**

Follow the application with **Penofin Pro-Tech Brightener (Step #3)**, to remove any tannin stains, gray discoloration and return the wood to its proper pH before starting with Penofin. This can be done immediately after cleaning.

#### **FOR GENERAL CLEANING:**

Remove any loose debris. Mix 1/2 to 1 cup per gallon of water. Scrub with a stiff bristle non-metallic brush and rinse well. Do not let this product stand on metallic surfaces as it may pit or etch.

**ALWAYS WEAR RUBBER GLOVES, EYE PROTECTION AND SOLID SHOES WHEN APPLYING. SURFACE WILL BE SLIPPERY. DO NOT INHALE POWDER, AS THIS PRODUCT WILL IRRITATE MUCOUS MEMBRANES, MAKE NOSE RUN AND EYES WATER.**

#### **CLEAN-UP:**

- Thoroughly rinse all equipment with water.
- Store any unused **Penofin Pro-Tech Cleaner** powder in its original container.
- Do not transfer to a metal container as it will cause a chemical reaction.
- Protect from freezing.
- For disposal of unused product and empty containers, contact your local household refuse collection service.
