

# PENOFIN PRO-TECH CLEANER

## STEP TWO

### PRODUCT DATA SHEET

#### **PENOFIN PRO-TECH CLEANER:**

The best outdoor cleaner for just about everything, this unique formula uses super hydrogen power to tackle any cleaning job around your home. Mix these concentrated granules in varying strengths to effectively remove grease, grime, organic stains, tree sap, bird droppings, pollen, and mineral deposits. For use on wood, masonry, concrete, fiber cement, fiberglass, outdoor furniture, cushions and floor coverings, glass and tile.

#### **PENOFIN PRO-TECH CLEAN APPLICATIONS:**

- ◆ Decks
- ◆ Siding
- ◆ Fencing
- ◆ Stucco
- ◆ Furniture
- ◆ Wood Art
- ◆ Glass and Tile
- ◆ Doors
- ◆ Fiberglass
- ◆ Window Trim
- ◆ Furniture Cushions

#### **TECHNICAL DATA:**

**VOC:** 0

**Installation Temperature:** No Temperature Restrictions

**Dry to Touch:** 24 hours

**Available Container sizes:** Quart & Gallon

**Applications per Quart:** 4 (approximately)

**Applications per Gallon:** 16 (approximately)

**Solution Coverage:** Approximately 300-400sq. ft. per gallon.

#### **SURFACE PREPARATION:**

Sweep the surface with a stiff broom or use a blower to clean the area of debris. If the surface has been treated previously with a non-Penofin coating, use a general wood or acrylic stripper to prepare the area. Protect boarding metal surfaces when using at high concentration. Dampen surrounding vegetation with water.

#### **APPLICATION:**

Pour one to two cups of **Penofin Pro-Tech Cleaner's** hydrogen-

ated crystals into one gallon of warm/hot clean water, and mix. Mist the surface to be cleaned with a garden hose. Using a plastic pump sprayer, apply the solution liberally. For best results do not allow the solution to dry on the surface. Mist occasionally (for best results with more solution) while allowing the solution to set for 15 minutes. Then lightly agitate with a non-metallic stiff bristled brush or long handle push broom. Rinse thoroughly with water.

**For Wood Surfaces:** Follow the application with Penofin Pro-Tech Brightener #3, to remove any tannin stains, gray discoloration and return the wood to its proper pH before starting with Penofin. This can be done immediately after cleaning.

**For General Cleaning:** Remove any loose debris. Mix 1/2 to 1cup of powder per gallon of warm/hot clean water in a garden pump sprayer. Apply to wet wood, let set for 15 minutes misting occasionally (for best results with more solution), then rinse thoroughly.

**ALWAYS WEAR RUBBER GLOVES, EYE PROTECTION, AND SOLID SHOES WHEN APPLYING. SURFACE WILL BE SLIPPERY. DO NOT IRRITATE MUCOUS MEMBRANES, MAKE NOSE RUN, AND EYES WATER.**

#### **CLEAN -UP:**

- ◆ Thoroughly rinse all equipment with water.
- ◆ Store any unused Penofin Pro-Tech Cleaner #2 powder in its original container.
- ◆ Do not transfer to metal container as it will cause a chemical reaction.
- ◆ Protect from freezing.
- ◆ For disposal of unused product and empty containers, contact your local household refuse collection service.
